Summary / Abstract.

Introduction

- facts, references!
- robot; * navigate
 - * recognize } → take/harvest/...
 - * sort,

Background

- focus on plant, what about fruit.

Goal

- really 'large' scope → boundaries
- what is the most risky part?

Integration

Problem

- we face an issue
 - ↳ general? or the group?

Research Questions:

- Not specific chapters, unless topics are explained.
- Main: develop robot? or extend robot.
- 3 → ?
- 4 = 6 ?

⇒ I don't see RQ on crops

↳ similarities?

↳ differences.

- ⇒ What about harvesting:
- cut
 - pull
 - break

- --

1

⇒ And what about sustainability?

Milestones: ambitions?

SQ 2: why not same layout every pixel?
why not set conditions

⇒ Missing: Link to contest
